

Operational Lidar Inventory (OLI) 2025, 10th Annual Meeting Vancouver, WA, USA

Jacob L Strunk
PNW FIA, USFS
4/15/2024

House Keeping

Emergency exits

Bathrooms

Please chat downstairs

Please make phonecalls downstairs

Please help with cleanup – 4:45

Must exit by 5 pm

Operational Lidar Inventory

Remote Sensing
Operational Forestry
R&D
Collaboration

Jacob Strunk

USFS Research Statistician

R&D stuff: forest sampling, estimation, modeling, mapping, GNSS, remote sensing.
Likes travel and outdoor family adventures.

Weikko Jaross

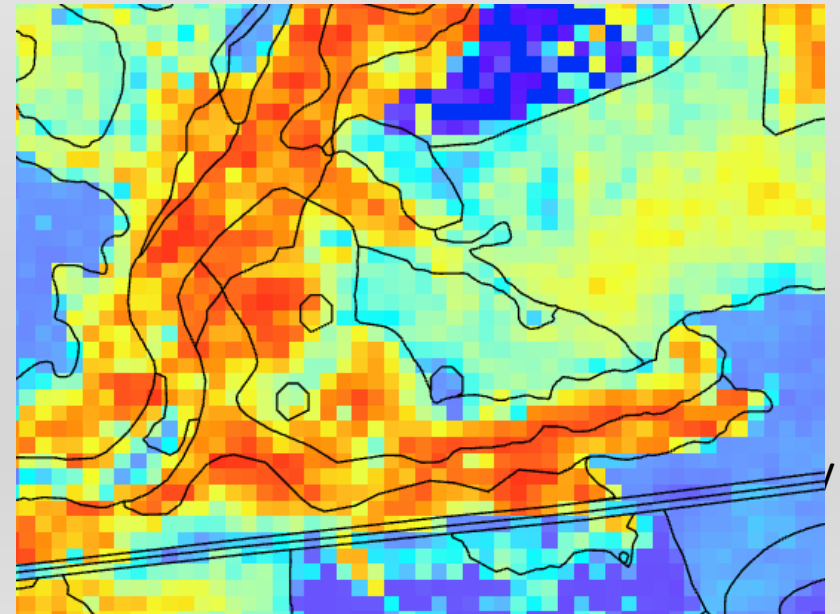

LandVest Director of Forest Informatics
and Client Services

OLI Mission

Advance “Operational” usage of Remote Sensing in Forest Inv. Monitoring

1. Communicate the state of the art
2. Tech transfer
3. Operationally relevant research topics
4. Communicate across groups
(students, private, public, research, consultants, ...)
5. Identify knowledge, methodological gaps
6. Identify solutions
